

HOW TO MEASURE FOR THE PERFECT SUIT

Follow this easy guide and your suits will be the perfect fit!
That's *Simply Tailored*.

★ JACKET MEASUREMENTS ★

STEP 1 : JACKET CHEST

With a shirt on, measure at nipple level under the armpits and over the shoulder blades.

Measure right around the back and belly.

STEP 2 : JACKET WAIST

★ TOP TIP ★
Don't guess your measurements

Shoulder tip to shoulder tip across the back of the neck.

STEP 3 : SHOULDER WIDTH

STEP 4 : JACKET LENGTH

Measure straight down the back from where your shoulder meets your neck to the height of your first thumb knuckle.

★ TOP TIP ★
Don't copy measurements from an old jacket

STEP 5 : ARM

Shoulder seam to base of thumb.

STEP 6 : BICEPS

Around the biceps when they are flexed, with elbows bent at 90°.

★ TROUSER MEASUREMENTS ★

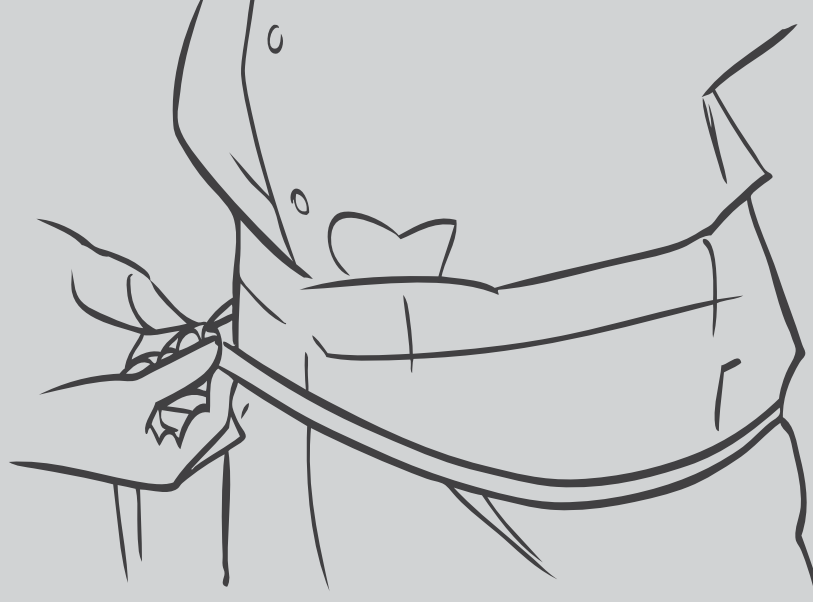

STEP 7 : TROUSER WAIST

Around the waist at the height the trousers will sit.

STEP 8 : SEAT

Around the buttocks and hips at their widest part.

★ TOP TIP ★
If you are being measured by a professional, ensure they follow these steps

STEP 9 : THIGH

Around the thigh at its widest circumference.

STEP 10 : OUTSIDE LEG

Top of the waistband to where the trousers will end, accounting for shoes.

★ TOP TIP ★
Please provide your exact measurements, we'll ensure that there is sufficient give in your garment.

STEP 11 : CROTCH

Top of waistband at front, through legs to top of waistband at back.

★ TOP TIP ★
Don't make it too tight here
